**Re: Docket No. W-02105A-09-0522, Decision No. 72001**

Here is our water report for the fourth quarter of 2015. We continue to remove old meters and replace with new meters to control and help to lower water loss. We had a strong storm occur in Dolan Springs in November causing considerable damage to roads and washing out some of our lines.

Our water loss has dropped from 2014, 21.6% /average to 2015, 18.4% /average. This is a drop of 3.2%. We are actively changing out more meters, locating and repairing more line leaks and looking for areas where there maybe water theft. We are continuing to address areas in regards to water loss.

Please let me know if you have any questions.

Regards,

Joseph Duarte
